Real Stories, Real Relief

Don't just take our word for it.

Here's what real people have to say about their experiences with Upphöja.

"I suffer from HUV. After sitting in the car for 4-8 hours in a car, it was great to be able to come home, set up the Upphöja and put my feet up and relax. Much easier and more comfortable than the pillows I used before. Typically in 30 minutes my legs felt much better. Thanks Upphöja!" - Mike H.

"A great invention! So nice to be able to raise and lower your legs without assistance from a caregiver. Also great that you can vary the height whenever and however you want. No need for all the extra pillows or props in order to elevate the legs." - Carol M.

"I used this product for exercises after my 2nd knee replacement surgery. After my 1st knee replacement, I used pillows. A big improvement." -Dennis M.
